Ex-Treasurer Otto Crawls, who was serving a term in the penitentiary for embezzling Putnam county monies, died at that institution on the 29th of July, of a broken heart it is said. The last word he spoke was that of "Mary," his wife's name.

The blooming of the bloomer is an unblushing declaration that a woman has two legs, and as such it is regarded by the painfully good as hurtful. Yet the anatomical fact has not been a secret. Any observing person knows that stockings come in pairs, and that few women buy a single garter at a time.

If you are going to make a new dress, we would suggest the following: Take the material for two shirts and make the sleeves; then take the material for one sleeve and make the skirt and when it is done be sure and wear the sleeves on the arms, as they are too bulky and not the proper shape to be worn as a skirt.

In the near future the ladies intend issuing a special woman's edition of the NORTHWEST, the proceeds of which is to go towards a worthy object. Treat the ladies well when their solicitors call upon you for your patronage, and they will give value received twice over. Look out for the woman's edition of the NORTHWEST.

It is a big thing to say but nevertheless true, that a great multitude of people have crowned Simmons Liver Regulator, the "King of Liver Medicines." There is nothing like it for malaria, rheumatism, chills and fever, constipation, biliousness, sick headache, indigestion and all troubles arising from a sluggish or diseased liver. Simmons Liver Regulator is the prevention and cure for these ailments.

An exchange says: Did you ever notice when a man drops a piece of meat on the floor, no difference how clean the floor may be, he gives it a kick or lays it to one side. He will never eat it. But let him drop his plug of tobacco on the street, and no difference how dirty the street will be, he will pick it up, give it a careless wipe on his coat sleeve, or on the bosom of his pants, and then take a chew from it with a keener relish than ever it did. But let him drop a cup of water that some one else has been drinking from, but he will turn up the same man's whisker and gurgles it down without a thought on the matter.

The Republican county central committee were in session on Thursday last. It was resolved to call the township and precinct caucuses for the 10th of August, at 7 o'clock in the evening, for the purpose of selecting Senatorial delegates. The apportionment gives one delegate to each precinct with the exception of two delegates to the three precincts giving the largest Republican vote. The question of calling a county convention for the selection of a county ticket was left to the executive committee, together with the chairman of the county central committee, it being deemed injudicious to call a convention before the Democrats set the time for their convention! Just as though it made any difference! But the gang wanted it that way, and what the gang says, goes.

Over at Bryan the other day, a bashful country girl went into a dry-goods store carrying a number of chickens with their feet tied, and in her confusion placed them on the counter. The proprietor is noted for his politeness to everybody, and not wanting the fowls on his counter, smilingly asked the bashful country girl: "Are you sure they will lay there?" "Oh, no, no, sir," she stammered blushing. "They are all roosters." And now the popular man chanted gets red at the sight of chicken salad.

Miami and Erie Ship Canal.

A meeting of delegates has been called, to be held in Cincinnati August 30, from the cities and towns along the Miami and Erie canal, to take into consideration the prospects and measures for enlarging the canal into a ship waterway. The meeting is to be held in connection with the Cincinnati board of trade. Toledo and every town along the canal should send delegates. The subject is one of paramount importance to western Ohio, as it is one that involves a larger volume of prosperity to the whole people than even the system of railroad transportation. The enterprise should be pushed.

A German paper says that one may tell by his action the nationality of the man into whose glass of beer a fly has dropped. A Spaniard pays for his beer, leaves it on the table and goes away without saying a word. A Frenchman will do the same except that he will swear as he goes. An Englishman will spill the beer and order another glass. A German will carefully fish out the fly and drink the beer as if nothing had happened. A Russian will drink the beer and the fly. A Chinaman will fish out the fly, swallow it and throw away the beer.
